The self-propelled Verti-Drain® 7007 can be used either as a sit-on aerator, or as a walk in front. The highly maneuverable Verti-Drain® 7007 can quickly and easily treat hard to reach areas. The unit deep aerates and cores down to 6" deep, which is deeper than any other walk-behind or sit-on aerator.

VERTI-DRAIN

Verti-Drains adjustable parallelogram design shatters the soil, and also allows for clean Coring, on all models.

The 7007 is a concept in deep tine aeration from Redexim North America. This new Verti-Drain® has the walk in front versatility and maneuverability for the superintendent that only uses pedestrian machines on his greens. The 7007 also incorporates the convenience of ride-on ability to get you quickly to the next green.

WORKING SPECIFICATIONS

Working width	27" (675 mm)
Working depth	Up to 6" (150 mm)
Weight	1,120 lbs (510 kg)
Engine	Honda 13 HP, with electric start
Hole spacing side-to-side	2 1/8" (55 mm)
Hole pattern	Hydrostatic: from 1 1/8" x 2 1/8" to 4 3/8" x 2 1/8"
Capacity (maximum)	From 5,705 sq ft/hr (530 sq m) up to 22,820 sq ft/hr (2,120 sq m)
Ground pressure	0.7 bar (max)
Shipping dimensions	40" x 50" x 44" (1.0m x 1.3m x 1.1m)
Maximum tine size	Solid 1/2" x 6" (12 x 150 mm) Hollow 3/4" x 6" (19 x 150 mm)
Lubrication grease	EP 2
Hydraulic oil	environmentally safe shellbio-hydraulic oil
Standard tines	5/16" X 6" (8 mm X 152 mm) solid w/adapters
Accessories available	Turf Hold Down Kit Rear Roller Core Collector Pencil Tine Block Core Deflector Plate

FEATURES / BENEFITS

FEATURE	BENEFIT
Verti-Drain	Lifts and cracks the soil using its unique adjustable parallelogram forced heave.
Fast operation	Out performs most popular self-propelled aerators.
Latest technology	Hydraulic lifting of the tines into/out of the ground and a virtually maintenance free operation.
