

# ARTIFICIAL TURF

## VERTI-TOP WB

### CLEANING AND DEBRIS REMOVAL

The Walk-Behind Verti-Top is ideal for smaller applications and tighter areas. Utilizing the same innovative cleaning technology as the tractor mount version, the walk-behind quickly and effectively removes debris and top layer infill while gently brushing and grooming the turf fibers. The removed material is sifted out in a vibratory shaker screen with the clean infill being returned to the turf and the debris sifted into an easy-to-empty bin. The Walk-Behind is equipped with a quiet and powerful Briggs & Stratton Intek 6.5 HP engine for long life and trouble-free performance.

# VERTI-TOP WB

The walk-behind Verti-Top is self-driven and powered by a 6 1/2 HP engine. It is ideal to clean smaller areas.

## WORKING SPECIFICATIONS
