The Verti-Drain Mustang 7110 is a fast Verti-Drain with a working width of 40" (1.0m), penetrating up to 6" (150 mm) deep. The tines can be adjusted to the vertical position for hollow coring, or to the 'kick' position for solid tine use. It is a simplified Verti-Drain model, containing a one-speed gearbox, and considerably less weight (approx 725 lbs/330kgs) allowing for use of a 13-15 hp tractor. The 7110 is supplied without a rear roller.

# VERTI-DRAIN 7110

Verti-Drains adjustable parallelogram design shatters the soil, and also allows for clean Coring, on all models.

The slick Verti-Drain Mustang 7110 has a weight of only 725 lbs (330 kilos), and fits to tractors as small as 13HP. Tine depth and tine angles can be set quickly and accurately using a simple handle or lever.
